Claude Architect Exam Prep (Repo 2)

Study notes and preparation material for the Claude Architect exam.

Contents

This repo holds Markdown files only for now. Notes will be added by topic as study progresses.

Planned Structure

- `notes/` – topic-by-topic study notes
- `practice/` – practice questions and answers
- `cheatsheets/` – quick-reference summaries

Status

Work in progress.

Markdown-only rule

Only `.md` files are accepted in this repo (plus `.gitignore`, `.gitattributes`, `LICENSE`, `.githooks/`, and `.github/workflows/*.yml`). It is enforced three ways:

1. `.gitignore` ignores everything except markdown and the allowed files.
2. A shared pre-commit hook. Enable it once after cloning: `git config core.hooksPath .githooks`
3. A GitHub Actions check (`Markdown only`) that fails on any other file type.
